REPORTS ROADS IN GOOD CONDITION

W. A. Kramer in the service of the Jitney Service Co. of this city, who has just returned from a trip through Utah and Idaho with Ogden parties, reports road conditions throughout the territory covered in very good shape, with the exception of over the Rattlesnake Pass, Utah. Through the Idaho deserts he found the roads in very good condition.

PROSPEROUS TIMES ARE HERE

A sure sign of prosperity is the tremendous demand for motor trucks among furniture dealers, according to the Burrows Auto Co. Most of the orders received up to date are for the 1-2 ton model and May deliveries are being specified. The furniture trade is a certain barometer of general business.

One furniture dealer in Salt Lake has ordered a 1-2 ton Jeffery truck with a removable nest of seats which

he will use on Sunday for picnic purposes. He has already received assurances of enough Sunday outings to pay for his truck investment during the first season. The seats carry 20 passengers.

Mr. Burrows also reports a large number of inquiries and sales for the new Jeffery 4 and 6 Chesters.

**68½ MILES AN HOUR
FOR 300 MILES**

The International Grand Prize race for motorcycles which was run last week at Venice, Cal., over the 300-mile course resulted in a new world's record being established. The winner was Otto Walker, who rode a Harley-Davidson. Time—4:24:17.15. Second place was won by Leslie Parkhurst, who also rode a Harley-Davidson.

PEANUT VS. AUTO

A novel race which caused considerable amusement to a large crowd, and lots of trouble for the traffic police, recently took place in Los Angeles. The contest was to roll a peanut with a toothpick faster than a

1915 Buick-6. The peanut crossed the line first, demonstrating how slow a modern engine can travel "on high" when throttled to the minimum.

A MILLION FORDS

Sales Director Norval A. Hawkins of the Ford Motor Company, who is making a six weeks' tour of Ford branches through the south and west writes that, after getting out on "the firing line" he can begin to understand the overwhelming demand for Ford cars. He reports that everywhere he is greeted by Ford dealers and distributors with tearful entreaties for "more cars." He writes from Houston, Tex.—"We could sell a million Fords this year, instead of 300,000."

EVERYONE TALKING ABOUT IT.

Clara Kimball Young appeared last evening in the great Russian drama, "Hearts in Exile." This wonderful production proves to be the greatest offering ever presented by the Alhambra Co. The riding of the darling Cosacks is wonderful. The acting of an all-star cast eclipses anything ever presented in this class of plays. Appearing tonight for the last time at the Alhambra. The theatre will be open today commencing from 2 to 11 p. m.—Advertisement.

BUSINESS MAN IS AWAKENED BY A BURGLAR

Two revolvers were stolen from the Alvord second-hand store on Grant avenue last night by a thief who broke a front window to gain entrance to the building.

I. T. Alvord, proprietor of the store, who was sleeping in a rear room, was awakened by the burglar and started after him. The latter, however, managed to elude his pursuer and take two revolvers with him.

DR. F. J. PACK TO BE SPEAKER AT THE TABERNACLE

Dr. F. J. Pack of the University of Utah is to lecture at the Tabernacle tomorrow afternoon on the subject of "Science." The lecture is a number of the tri-state M. I. A. series on the question of "Vocations," and Supt. J. M. Mills of the city schools will act as chairman of the meeting.

The Tabernacle choir will furnish a special program of music, among the numbers being the choruses, "O Lord of Hosts," by Dudley Buck, and "Sweet and Low," by Barnby. The meeting will begin at 2 o'clock.

CONTRACTS FOR THE CEREAL FACTORY MACHINERY

The executive committee of the Utah Cereal Food company held an important meeting yesterday afternoon at which the general machinery contract was awarded to the Nordyke and Manton Machinery company, an eastern corporation.

A contract for the electric motors was let at the same time to the General Electric company. The total cost of the machinery for the big plant, including the motors, will be between \$35,000 and \$40,000.

JUDGMENTS IN DISTRICT COURT

In Judge N. J. Harris' division of the district court judgment has been given the plaintiff in the sum of \$11, in the case of X. Dessipris against Matteo Licauti and wife.

Judgment for plaintiff has also been given in the case of Sylvia Dee against Albert Stallings et al., in the sum of \$812, with interest. The decree also directs that the mortgage held by the plaintiff be foreclosed to pay the judgment.

In the matter of the estate of Isaac L. Clark, deceased, in the district court, the administrator has petitioned for an order to sell certain real estate.

Estate and guardianship of Lottie Shupe, et al., minors, the guardian, Mrs. Sarah L. Shupe, has petitioned for \$20 a month family allowance. The petition relates that the family has been under smallpox quarantine the past seven weeks and that the allowance asked for will be needed for at least three months.

CHILDREN AIDED AND NINE OPERATIONS PERFORMED

An open meeting of the Children's Aid society was held at the home of the president, Mrs. James Canse.

Many interested friends of the society were present to hear the annual reports of the officers and chairmen of the various committees. Much surprise and appreciation was expressed in the work of the society.

The secretary's report in part follows: "Three hundred and fourteen visits were made by members to various families and to the hospital to call on sick children who were placed there by the society. Six visits were made to homes outside the city. The society endeavors to keep in touch with its wards who have been placed in either temporary or permanent homes since its organization, by visiting them during each year, wherever it is possible. A thorough investigation is made of every home before allowing a child to be adopted. Three children have been legally adopted this year.

Twelve children were placed in temporary homes for periods ranging from one week to three months, or until suitable permanent homes were found. Three children have been placed in country homes for the summer and it is the desire of the society to send other children to the country for the summer months.

"At Christmas time, many families were remembered with dinners, articles of clothing, books, toys, candy and oranges.

"A free dispensary was opened December 4, in the business district, with one or two members and a trained nurse always in attendance. This has been kept open on Wednesdays and Saturdays of each week, from 2 to 5 o'clock for over four months, and its success has been very gratifying to the members.

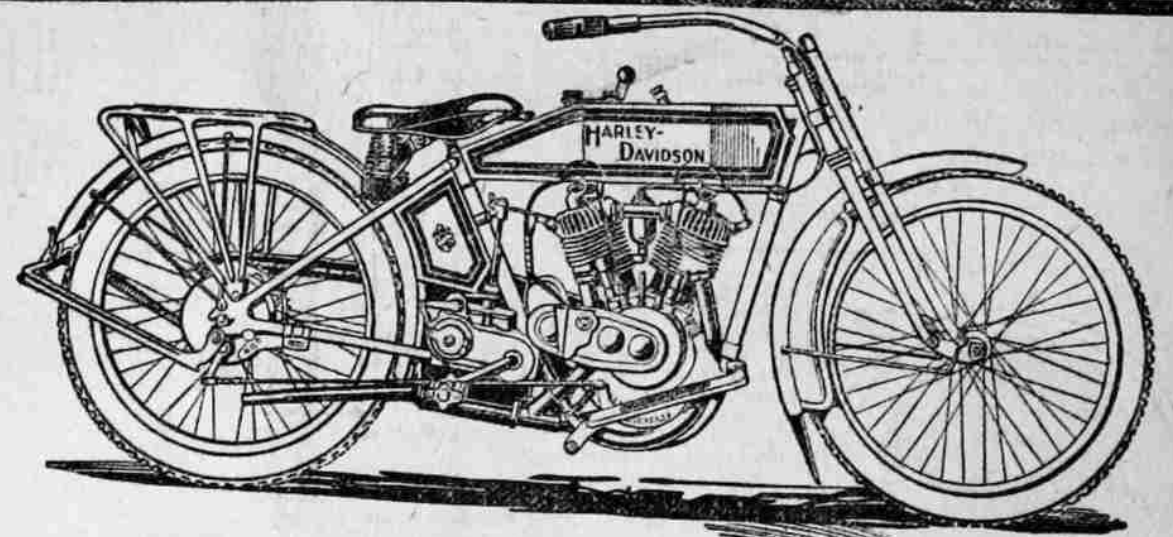

Cases of sickness, including croup, tonsillitis, scarlet fever, pneumonia, quinsy, St. Vitus dance and la grippe were given medical attention and medicine furnished by trained nurse to others who were unable to buy it.

"Operations were performed on nine children, two for hernia, one on a child's leg, which was affected by infantile paralysis. Adenoids and enlarged tonsils were removed from four children, and two operations were performed on the eyes of a young girl. Those needing the attention of an oculist or dentist have received treatment.

"The society is deeply interested in, and has had another baby examined who is also suffering from the effects of infantile paralysis.

"Eleven hundred and fifty-one articles of clothing have been distributed at the dispensary to needy children, which represents fifty-five families and include one hundred and seventy children."

The society feels grateful to the physicians who have so freely given their valuable time and services in alleviating the suffering of these little children; to the many friends for

Just received a shipment of the famous "WORLD'S RECORD BREAKER," Harley-Davidson Motorcycle.

BOYS HELD FOR AUTO STEALING

Sheriff T. A. DeVine yesterday afternoon arrested Herman Van Leuven, Joseph Moyes, Harold Nicholas, Ted Bateman and Clarence Dew on the charge of grand larceny. The lads are accused of stealing R. B. Gwilliam's automobile at the Riverdale church, Thursday night. They were taken before the juvenile court this morning.

When arraigned in the juvenile court it was learned that all of the boys, except Bateman and Dew, were under 18 and they were required to enter into an agreement with the court that they would appear Thursday morning for trial.

Bateman and Dew were remanded to the custody of the sheriff and their examination will be taken up in the municipal court. The juveniles will be charged with the same offense as the two other boys but if found guilty sentence will be only to serve time in the State Industrial school.

The officers say that the boys took the Gwilliam machine out for a joyride, having with them some of the country girls. The machine was left at Clinton.

Nicholas was first arrested and he

confessed the entire transaction, implicating the other boys.

Dew says that he was not with the party and did not know the boys had stolen the machine. He claims that he was requested to drive the Nicholas machine while they went out for a little joy ride with the other machine. He knew that the boys were out for a little time.

Sheriff DeVine states that automobile stealing must cease, if he has to send young fellows to the state penitentiary. The sheriff's office is called upon every little while to look into an automobile theft.

WHERE IT BELONGED.

While traveling through Ohio a few years ago Prof. T. C. Mendenhall, of the Worcester institute, consented to address a few remarks to the pupils of the district school that he had attended when a boy, relates the Woman's Home Companion.

"Did any of you," he asked, "ever see an elephant skin?"

A boy held up his hand and wriggled excitedly.

"Well," said the professor, "I have," said the boy.

"Where did you see it?"

"On an elephant."

SACCHARINE PALM.

About 15 per cent of saccharose is contained in the sap of the Nipa palm which covers large areas in the Philippines. In the experiments made an acre of 300 trees has yielded sap at the rate of about 2,000 gallons in the annual season of 150 days and a gallon of sap produces slightly over a pound of excellent commercial white sugar. A profitable industry is anticipated with the product of about 1,100 acres keeping a ten-ton mill running at full capacity.—Philadelphia Ledger.

BURGLARS' PLANT IS FOUND NEAR THE WEBER RIVER

Acting on information received from an employee of the Utah Construction company, Thursday morning, Officers Chambers and Guy Nelson of the local police department and Watchman Bennett of the Construction company, unearthed what is believed to have been a burglar's "plant," at the west end of the Construction company's yards, near the Weber river. There were found three sticks of giant powder, with fuse and caps, a flashlight case, 2 pairs of overalls, a coat, some fishing tackle, some bottled fruit and a pound brick of butter.

The man from whom the first information was received telephoned to Mr. Bennett that he had seen two men going through the U. C. C. yards toward the river carrying something in a sack. Mr. Bennett, who was at his home, immediately notified the officers and met them at the yards, and the search followed.

HOW IT'S DONE.

"Senator, you promised me a job." "But there are no jobs." "I need a job, Senator." "Well, I'll ask for a commission to investigate as to why there are no jobs and you can get a job on that."—Louisville Courier-Journal.
